

DEXYCU[®]
(dexamethasone intraocular suspension) 9%

Billing & Ordering Guide

Pass-through status

Under the Outpatient Prospective Payment System, pass-through products are paid separately (i.e., in addition to the packaged procedural payment) by the Centers for Medicare & Medicaid Services (CMS). **DEXYCU[®]** (dexamethasone intraocular suspension) 9% use for patients with Medicare Part B coverage is separately reimbursed.

J-code for DEXYCU: J1095

Ambulatory Surgery Centers (ASCs) and Hospital Outpatient Departments (HOPDs) use this unique J-code to bill CMS and other payers for separate payment. CMS (Medicare) billing is for a single unit of measure. For **DEXYCU**, 1 unit=1 microgram. Allowable billing for **DEXYCU** is 517 units.
